Summary

DevOps / SRE Engineer with 4 years of experience managing production systems, improving reliability, and automating infrastructure in enterprise environments. Experienced in building resilient CI/CD pipelines, strengthening monitoring frameworks, and implementing infrastructure as code. Strong focus on system availability, incident reduction, and secure deployment practices aligned with DevSecOps principles.

Technical Skills

- **Cloud Platforms**: AWS(EC2, VPC,S3,IAM,),Microsoft Azure
- **CI/CD Tools**: Jenkins
- **Infrastructure as Code**: Terraform
- **Containers & Orchestration**: Docker, Kubernetes, Helm
- **Version Control**: Git, GitHub
- **Scripting Languages**: Bash
- **Monitoring & Logging**: Prometheus, Grafana
- **Configuration Management**: Ansible
- **Operating Systems**: Linux (Ubuntu, RHEL), Windows
- **Databases**: MySQL, MongoDB, RabbitMQ, Redis
- **Other Tools**: Nginx, Vault, Jenkins. ServiceNow

Professional Experience

SYSTEM ENGINEER

Tata Consultancy Services ltd | Hyderabad, Telangana| Nov 2024 – *Present*

- Owned production reliability for critical workloads, maintaining 99.9%+ service availability across environments.
- Reduced MTTD by 35% and MTTR by 40% by implementing structured alerting, monitoring dashboards, and incident response playbooks.
- Automated infrastructure provisioning using Infrastructure as Code, reducing environment setup time by 50% and minimizing configuration drift.
- Strengthened CI/CD pipelines with automated validation checks, improving deployment success rate to 98% and reducing rollback frequency.
- Supported containerized applications and ensured stable orchestration across environments, improving release consistency.
- Performed root cause analysis for high-severity incidents and implemented preventive reliability controls, reducing recurring issues by 30%.

ASSISTANT SYSTEM ENGINEER

Tata Consultancy Services ltd | Hyderabad, Telangana| March 2022 – *Oct 2023*

- Maintained 99.5% uptime for business-critical applications through proactive monitoring and timely incident resolution.
- Automated repetitive operational tasks, reducing manual effort by 30% and improving team productivity.
- Assisted in CI/CD deployments and ensured smooth release cycles with minimal downtime.
- Monitored system performance metrics and addressed capacity or performance risks before SLA impact.
- Supported change management and release governance processes in production environments.
- Contributed to maintaining operational documentation, runbooks, and security best practices.

Education

Bachelor of Science in Computer Science

JNTU kakinada | Kakinada, Andhra Pradesh | *Graduated: July 2019*
